```
library(tidyverse)
library(gt)
```

Long Titles get Left Aligned. Why?

```
mtcars %>%
  count(cyl) %>%
  gt() %>%
  tab_header(
    title = md("When my Title is long it gets Left-aligned and this is not attractive"),
    subtitle = md("Even subtitle gets left aligned")
  )
```

When my Title is long it gets Left-aligned and this is not attractive
Even subtitle gets left aligned
